

High Density MPO to Duplex LC Breakout

Fiber Mountain J-Series breakout panels provide all front-facing connectivity. The panel is modular with room for 8 MPO-to-LC cassettes in a 1 RU frame. Cassettes include Type A and Type B mapped QSFP breakout for 40G, 100G and 400G applications, and are available with Single Mode and Multimode fiber.

J-Series Specifications

Panel Frame	
Dimensions	0.30" x 19.00" x 1.75"
Weight	0.27 lbs.
Cassette	
Dimensions	3.50" x 4.20" x 0.50"
Weight	0.21 lbs.

J-Series Cassettes

Fiber Mountain's J-Series cassettes permit dynamic network layouts in a 1RU space. Cassettes are modular, allowing for multiple mapping and breakout options to be combined in the same frame. Cassettes are easily installed or removed from the modular panel frame for low-maintenance setups. J-Series cassettes are available in MPO-8 configurations with multiple fiber mapping options.

Cassette Adapter Specifications
